

Welcome.! This is the inaugural issue of the Dartmouth Pathology residency Alumni newsletter. We have just welcomed our three new first year residents and a new student fellow.

As I receive occasional inquiries from alumni about the status of the department, it seems that a newsletter could help fill in the gaps and keep us all in touch. My goal is to publish once a year. About 8 years ago, the department began a alumni meeting through the USCAP meeting, and we will continue this as interest among you all continues.

If you have a preferred e-mail, or any feedback, please let us know.

The department has had a number of retirements this past year. Most notably, Barbara Slaton and Susan Hawk. They are both enjoying their retirements and visit the dept. now and then to provide guidance. A few familiar faces gathered together to celebrate.

*Front row (L-R) C. Black, Robin Weisburger, Susan Hawk, Mrs. Longnecker,
Back Row (L-R) Charles Faulkner, John Dunn, Dan Longnecker, R. Budner, Barb Slaton, and Vince Memoli*

Susan's retirement celebration with the residency committee. Seated -Nora Ratcliffe, Viju Padmanabhan, Laura Tafe and Alan Schned.

Our new program coordinator is Theresa Norman. She is a capable person and is happy to be part of our fine program.

This year's graduating seniors will all begin fellowships (L-R) Lauren Scott (forensics, in NC) Jason Pettus (surgical pathology, at MGH) and Heather Froehlich (dermatopathology, here at DHMC),(and C. Black)

Dr. Wendy Wells

Dr. Weinstein

This is an informal group photo from the graduation ceremony. We were at *The Top of the Hop* this year.

The department leadership was filled this year as Dr. Wendy Wells returned from a leave in England to take on the job of Chair. Dr. Alan Schned had filled as interim for two years. The hospital leadership also changed in the last few years, with the appointment of Dr. James Weinstein as the new President and CEO of the Dartmouth Hitchcock enterprise. He is formally of the Dartmouth Institute of Health Care Policy, and will lead the hospital and its training programs into the new era of health care.

Our department is scheduled to see growth over the next few years as a new building is added to the Lebanon campus. Have great summers,

Best Regards,

Candice Black, Program Director
